

# RTS REALTIME SYSTEMS

RTS is a pioneer in the design and creation of high performance, low latency, functionally rich, multi-asset electronic trading software with thousands of user connections to 120+ exchanges and execution venues.

The RTS solutions provide you with:

- Low latency backend access to derivatives and equities execution venues around the world
- Simulated market access environment to test your strategies with real time market data feed
- Integration of any external source including 3rd party market data aggregators
- Production grade strategies including VWAP, TWAP, Smart Order routing, Auto Spreader

RTS' software suite includes the RTS Realtime Trading Desktop (RTD) with further add-on modules, RTD Tango, the automated algorithmic trading platform, with its full back-testing capabilities and RTD Tango Trader. RTD Tango Trader combines click and algorithmic trading into one front end on one screen.

In addition to RTD Tango Trader, RTS offers a variety of cutting edge automated trading tools. The RTD Quote Machine®, RTD Electronic Eye®, RTD Spreader, RTD Basket Trader® and the RTD Sales Trader provide traders with a serious competitive edge.

For a detailed listing of the prices associated with RTS' solutions, please see the schedule below. Please contact an Advantage Futures sales representative with any questions at 312.347.4800.
