

STRATEGY RUNNER

Strategy Runner is a leader in professional trading platforms enabling tens of thousands of traders to trade with ease and precision.

Strategy Runner Lite offers point & click trading from charts, one-click trading from trading pad, order management strategies (e.g. scale-outs, OCO, trailing stops), advanced charting packaging, real-time streaming quotes, composite position tracker and profit & loss display. Strategy Runner also offers customizable daily profit & loss limits and contract limits. Strategy Runners' server-based technology ensures order execution regardless of network related problems.

Strategy Runner Pro offers all the functionality of Strategy Runner Lite *plus* a complete solution for fully-automated, algorithmic trading. Strategy Runner Pro offers flexible integration with popular development engines, ability to execute trades in multiple accounts, real-time transparency of strategy performance (using graphical monitoring) and full control over strategy execution with the ability to modify or liquidate strategies. Notably, using Strategy Runner Pro platform, traders can auto-execute hundreds of pre-packaged, proven trading strategies from Strategy Exchange.

WebRunner & iRunner now available as part of Strategy Runner Pro, offers convenient web-based trading access to your account. Monitor your orders, positions & strategies. Advanced strategy management functionality. Free charting package. Direct order entry. Automatic exit strategies. Access to your account report & fully synchronized with all Strategy Runner applications.
