

PATSYSTEMS

Patsystems provides industry-leading technology to leading banks, trading houses, hedge funds and derivatives professionals around the globe.

Patsystems J-Trader is one of the most widely distributed front-ends. J-Trader is simple to deploy, easy to use, and provides all the functionality you would expect from a successful and versatile front-end. It is the ideal all-purpose trading tool.

Patsystems Pro-Mark is a premium front-end trading tool – one of the most advanced applications available to the professional sector. It was developed after comprehensive market research into the needs of serious traders whose business is high volume, complex, and intensive. Pro-Mark is the ideal tool for traders in proprietary houses and investment banks, as well as committed independents who want high levels of speed and power. Pro-Mark functionality includes advanced options trading capability, flexible charting, Excel integration, multi-leg spreading and sophisticated energy trading tools.

For a detailed listing of the prices associated with J-Trader and Pro-Mark see the schedule below. Contact an Advantage sales representative with any questions at 312.800.7000.
